Office Action Summary	Application No. 10/530,324	Applicant(s) HORIMATSU ET AL.	
	Examiner Lori L. Lyjak	Art Unit 3612	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Claims 2-10, 25-39 and 41-47 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on June 21, 2007.

Drawings

2. Figures **3, 4a and 4b** should be designated by a legend such as --**Prior Art**-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1 and 48 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant

Art Unit: 3612

art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The specification only mentions “rigid urethane foam” but amended claims 1 and 48 claim “foamed polyurethane”.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1 and 48 are rejected under 35 U.S.C. 102(b) as being anticipated by Bray 4,871,205.

Regarding claim 1, Bray discloses an attachment structure for an EA component for attaching the EA component (1) to a member (23), wherein the EA component is attached to the member by engaging a first locking part (21 and 22) that is integrated with the EA component with a second locking part (end of 23) provided in the member; the EA component comprises a foamed polyurethane; and the first locking member (21) is integrated with the foamed polyurethane in Figure 9.

Regarding claim 48, Bray discloses an attachment structure for an EA component, wherein the foamed polyurethane is a rigid urethane.

7. Claim 40 is rejected under 35 U.S.C. 102(b) as being anticipated by Watanabe et al. 4,363,839.

Regarding claim 40, Watanabe et al. '839 discloses an attachment structure of an EA component for attaching the EA component (10) to a member (4), wherein: the EA component is attached to the member by engaging a first locking part (11) that is integrated with the EA component with a second locking part (4a) provided in the member; and the member is a trim (2) of an automobile in Figures 1-3.

Allowable Subject Matter

8. Claims 18, 19 and 22-24 are allowed.
9. Claims 11-17, 20 and 21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
